

Four Corners Development Group (FCDG) will be presenting FCDG Pool at iWireless World, on August 4, 2003. FCDG Pool will be part of GamesFest, which will take place at lunchtime on the first day of the conference.

FCDG Pool is a full 8 Ball pool game for the BREW platform. Fast, fun gameplay and one or two player modes make FCDG Pool one of the most enjoyable games to play on your phone.

The GamesFest presentation will be given by Jeff Miller, Lead Architect of FCDG. The game will be shown operating on the Motorola T720.

Founded in 2001, FCDG is a software development and multi-media company with offices in San Diego, California, and Silver Spring, Maryland.

Four Corners Development Group is actively developing games for the BREW platform, and anticipates the release of multiple titles this year.
