

Press Release:
April 12, 2005
San Diego, CA

Four Corners Development Group, FCDG, today announced the overwhelming success of their Mobile Brackets™ application. Mobile Brackets™ brought users the latest information on the NCAA March Madness tournament games. Updates included: Scores and times remaining in the game, halftime scores, and final scores.

FCDG will be bringing more fantasy sports titles to the market in the near future and looks forward to working with both carriers and end users to serve the needs of a market hungry for up to the minute sports information on their mobile devices.
