

FCDG announces WinFling™. Run your BREW content on Microsoft® Windows Mobile® and Windows® Desktop.

San Diego CA –April 04,2008-Four Corners Development Group, FCDG, a leader in mobile technology, today announced the release of WinFling, a porting platform for QUALCOMM's BREW® solution.

WinFling facilitates the porting of BREW applications to Windows Mobile handsets, and the Windows Desktop, using a proprietary in-house engine. WinFling allows content providers and developers the opportunity to bring their software to millions of Windows Mobile handsets, without changing their coding platform or releasing their source code.

“We are extremely excited to be offering a solution to developers that allows them to further capitalize on their existing intellectual property, and bring their BREW applications to the Windows Mobile marketplace”.

For more information, or to setup an appointment to have your application porting needs evaluated, contact admin@fourcornersdevelopmentgroup.com
